Enchantment Slots The Specialization of the Sorcerer can be unlocked at Level 15. Complete the Legacy of the Magi questline as soon as possible to gain access to your first Enchantment Slot, and then assign FireballFireball for additional AoE explosions to clear groups of enemies. Once you unlock the second slot at Level 30, assign HydraHydra to it for more spawns.

## Legendary Aspects

Higher Tier Aspects with more potent effects can be found on dropped Legendary Items. Salvage unwanted Legendary Items at the Blacksmith to unlock these Aspects in the Codex of Power, and then imprint them onto well-rolled Rare or Legendary Items. Check the in-depth Aspect and Codex of Power guide for more information.

Aspect of Elemental ConstellationAspect of Elemental Constellation is the most beneficial aspect that can be found on Legendary Item drops. If you are lucky enough to find the aspect with a decently rolled value, imprint it onto a Staff to double the dagger damage.

Listed below are the Aspects found on Legendary Items that are beneficial for the build while leveling, in order of importance. Check the endgame guide for the Fireball Sorcerer for the best-in-slot Aspect setup.
