

# Radarr on Synology

SPK for Synology is available here: <https://synocommunity.com/package/radarr>

Synology DS414 uses armv7l CPU MARVELL Armada XP MV78230

Manual update when auto-update fails:

```
sudo synopkgctl stop radarr  
  
cd /var/packages/radarr/target/share/  
sudo mv Radarr Radarr-old  
sudo mv /tmp/radarr_update/Radarr .  
sudo chown -R sc-radar:radarr Radarr  
  
sudo synopkgctl start radarr
```

Issue updating Radarr with error

```
[v3.1.0.4893] System.UnauthorizedAccessException: Access to the path  
'/proc/19002/maps' is denied.
```

can be solved by stopping Sonarr first, applying the Radarr update and then re-starting Sonarr.
