Bedside clock, music player

An old mobile phone makes the perfect bedside clock, music and audiobook player.

Ideally, the phone has an amoled display and an audio jack, but Bluetooth works as well.

Settings / apps suggestions:
https://www.reddit.com/r/androidapps/comments/6wdr3s/tip_send_alarm_sound_only_via_connected/
Sleep on Android or Earphone alarm to send the alarm through the earphone or bt speakers instead of the phone loudspeaker.
