apt hold

Prevent packages from auto-updated via apt:

```
sudo apt-mark hold packagename
```

Show all holds:

```
apt-mark showhold
```

Remove mark:

```
sudo apt-mark unhold packagename
```

Same for dpkg:

```
echo "packagename hold" | sudo dpkg --set-selections
```

```
dpkg --get-selections | grep hold
```

```
echo "packagename install" | sudo dpkg --set-selections
```
