File Changes

Watch for changes in files:

```
sudo apt-get install inotify-tools
```

```
inotifywait -e modify,create,delete,move -r -m /path/to/watch
```

To do something with the result, the following could be used

```
inotifywait -e modify,create,delete,move -r -m | while read line; do
something_with $line; done
```

Watch for dconf changes:

```
dconf watch /
```
