Notifications

VNC notifications example:

```
#!/bin/bash

alertme() {
    zenity --notify "Big brother watching"
}

while :
do
  netstat -a | grep vnc | grep ESTABLISHED && alertme
  sleep 60 #wait 60 seconds
done
```

Notify-Send script with more options than zenity:
https://github.com/vlevit/notify-send.sh/blob/master/notify-send.sh

```
./notify-send.sh --expire-time=-1 --
icon=/usr/share/icons/Humanity/apps/24/application-x-vnc.svg Subject Message
```
