

OneDrive on Mint 20

Source: <https://linuxhint.com/install-and-use-onedrive-on-linux-mint/>

The OneDrive version in the Ubuntu universe repository is version 2.3.13 - do not use, it does not work! Use the PPA instead (current version 2.4.10)

```
sudo add-apt-repository ppa:yannlck/onedrive
sudo apt update
sudo apt install onedrive
```

First run:

```
onedrive
```

Then open the displayed url in a browser, authenticate, copy the url of blank page into console

Test:

```
onedrive --synchronize --verbose --dry-run
```

Sync manually:

```
onedrive --synchronize
```

Install Service:

```
systemctl status --user onedrive
systemctl --user enable onedrive
systemctl --user start onedrive

systemctl status --user onedrive
```
