

Jackett on Synology

SPK for Synology using dot-net framework rather than Mono for arm7,arm x64 and x86 is available here: https://github.com/publicarray/spksrc/releases/tag/jackett-dotnet-0.16.1583_1

Manual update when auto-update fails:

```
cd /var/packages/jackett-dotnet/target/share/  
sudo mv jackett jackett-old  
sudo mv /tmp/JackettUpdate-v0.17.*/Jackett/ jackett
```

Update 0.16→0.17 fails on synology due to dotnet 5 dependency issue (libstdc++ 6.0.22):

```
copy libstdc++.so.6.0.22 from my debian distro, and put it to /lib  
folder in DSM  
chmod 555 libstdc++.so.6.0.22  
change symbolic link libstdc++.so.6 to this file (ln -f -s  
libstdc++.so.6.0.22 libstdc++.so.6)  
run dotnet --info  
It run without the error.
```
