

Jackett on Synology

SPK for Synology using dot-net framework rather than Mono for arm7, arm x64 and x86 is available here: https://github.com/publicarray/spksrc/releases/tag/jackett-dotnet-0.16.1583_1

Manual update when auto-update fails:

```
cd /var/packages/jackett-dotnet/target/share/  
sudo mv jackett jackett-old  
sudo mv /tmp/JackettUpdate-v0.17.*/Jackett/ jackett
```

Update 0.16→0.17 fails on synology due to dotnet 5 dependency issue (libstdc++ 6.0.22):

```
copy libstdc++.so.6.0.22 from my debian distro, and put it to /lib  
folder in DSM  
cd /lib/  
sudo chmod 555 libstdc++.so.6.0.22  
sudo ln -f -s libstdc++.so.6.0.22 libstdc++.so.6  
run dotnet --info  
It run without the error.
```

<https://packages.debian.org/stretch/armhf/libstdc++6>

Extract and transfer on different debian based distro to nas:

```
cd /tmp  
wget  
http://ftp.us.debian.org/debian/pool/main/g/gcc-6/libstdc++6_6.3.0-18+deb9u1  
_armhf.deb  
dpkg -x libstdc++6_6.3.0-18+deb9u1_armhf.deb libstd  
scp libstd/usr/lib/arm-linux-gnueabi/libstdc++.so.6.0.22 admin@nas:/lib/
```
