

Jackett on Synology

SPK for Synology using dot-net framework rather than Mono for arm7,arm x64 and x86 is available here: https://github.com/publicarray/spksrc/releases/tag/jackett-dotnet-0.16.1583_1

Manual update when auto-update fails:

```
cd /var/packages/jackett-dotnet/target/share/  
sudo mv jackett jackett-old  
sudo mv /tmp/JackettUpdate-v0.17.*/Jackett/ jackett
```

Update 0.16→0.17 fails on synology due to dotnet 5 dependency issue (libstdc++ 6.0.22): copy libstdc++.so.6.0.22 from a debian distro, and put it to /lib folder on the NAS

<https://packages.debian.org/stretch/armhf/libstdc++6>

```
cd /tmp  
wget  
http://ftp.us.debian.org/debian/pool/main/g/gcc-6/libstdc++6_6.3.0-18+deb9u1_armhf.deb  
dpkg -x libstdc++6_6.3.0-18+deb9u1_armhf.deb libstdc  
sudo cp libstdc++6_6.3.0-18+deb9u1_armhf.deb /lib  
cd /lib/  
sudo chmod 555 libstdc++6_6.3.0-18+deb9u1_armhf.deb  
sudo ln -f -s libstdc++6_6.3.0-18+deb9u1_armhf.deb libstdc++6_6.3.0-18+deb9u1_armhf.deb  
  
status pkgctl-jackett-dotnet  
start pkgctl-jackett-dotnet  
tail /var/packages/jackett-dotnet/target/var/jackett-dotnet.log
```
