Windows 10 USB

Creating a bootable Microsoft Windows 10 USB installation stick:

Download the Win10 ISO file from here:
https://www.microsoft.com/en-gb/software-download/windows10ISO

Use dd to write the iso file to the USB stick:

```
sudo dd bs=4M if=Win10_2004_English_x64.iso of=/dev/sd(*) conv=fdatasync
status=progress
```
